*Keller Collection Co.*LONG STRING OF
LAND CASES NOW
ON IN U. S. COURTAppeals of Elephant Butte
Landowners From Condemnation
Awards Being Heard
Before Judge Pollock.

the initial case, the first witness taking the stand at 2 o'clock this afternoon.

The property owners are dissatisfied with the amount of the awards received from the government, which was allotted them by a commission of three members, and are seeking relief in court.

The jurors adjourned to hear the evidence of John Segura, Andres Trujillo, Jose Gervasio Medina, Roy O. Campbell, Frederick W. Harden, L. Philipe Bonnard, W. H. McMullan, Modesto Chaves, Joe Sellers, Louis J. Benner, Ward D. Anderson and Dr. A. Macpherson.

NO CASE AGAINST
SUSPECTS; JUDGE
ORDERS THEM FREED

With the selection of a jury this morning in federal court, the long series of appeals from condemnation awards of the government to land owners around Elephant Butte was started. The cases are to be tried in groups of five, to be selected at random. The first five include those of the government against Lorenzo Aragon, Robert Martin, Louis H. Austin, Emilio Torres and W. H. Austin. John T. McElroy and Mrs. L. Kahler, the latter being joint owners of one tract of land. The land owners have sixteen witnesses to testify in their behalf.

NOTICE TO PROPERTY OWNERS

Please call at the Assessor's Office at the Court House and make your return on Real and Personal Property. It said return is not made on or before the last day of February the Assessor will make return of your property and ADD A PENALTY OF 25 PER CENT AS PUNISHED BY LAW.

FRED B. REYN, ASSESSOR.

A Good Investment.

There is no better investment than a fifty cent piece in a bottle of Meritol Liniment. Muscular and rheumatic pains, swellings, lameness and soreness of the muscles are promptly relieved. Meritol White Liniment is especially recommended as a general pain killer of unusual merit. Price 50c, \$1.00. Orwell Drug Co., local agency.

The Pool.

The pool is a feature which would make the Y. M. C. A. plant a strong attraction in this part of the country. The pool itself is 29 by 60 feet, and flooded with daylight. A deep part with a patented springboard for diving is at one end and a shallow part for small boys is at the other end.

All danger will be eliminated from the pool by rigid enforcement rules.

In the first place, all those boys and men, who cannot swim will be taught now. Little boys will not be allowed in the pool at all unless an instructor is present.

A比ber and jump have been ordered, and when the pool goes into commission arrangements will be complete for keeping the water absolutely sanitary and fresh all the time. No one will be allowed to enter the pool till he has taken a shower bath.

The building committee will meet tomorrow to let the contract on electric lights.

The near approach of the day on which the contractor will turn over the building sharpens the need of the association for all the money pledged to the building fund. It is imperative that the subscriptions just due be collected without delay and plans have been made for a "No Excuse" collection campaign. It will be conducted March 2, from 8:30 until 12 o'clock noon. The same teams that took part in the original subscription campaign will go out after the subscribers and the aim will be to take in every last cent.

It is felt that the men who have not yet paid should feel like "coming across" more readily than those who settled up early, because they can take a little pleasure in First and Central and get a highly impressive idea of what their money gives the town and themselves. The man who looks at the building and pays no or vice versa gets a large feeling of value received.

ACID IN STOMACH
SOURS THE FOOD

Says Excess of Hydrochloric Acid Is Cause of Indigestion.

A well-known authority states that stomach trouble and indigestion is nearly always due to acidity and stimulate—and not as most folks believe, from a lack of digestive juice. He states that an excess of hydrochloric acid in the stomach retards digestion and starts food fermentation, thus our meals sour the garbage in a can, forming acids and gases which inflate the stomach like a toy balloon. We then get that heavy, lumpy feeling in the chest, we crave sour food, belch gas, or have heartburn, gastritis, water-brash or nausea.

He tells us to lay aside all digestive aids and instead, get from any pharmacist four ounces of Jad Salts and take a tablespoonful in a glass of water before breakfast while it is still cooling, and furthermore, to continue this for one week. While other follows the first dose, it is important to neutralize the acidity, remove the gas-making mass, start the liver, stimulate the kidneys and thus promote a free flow of pure digestive juices.

Jad Salts is inexpensive and is made from the ash of grapes and lemon juice combined with lithium and sodium phosphate. This harmless salts is used by thousands of people for stomach trouble with excellent results.

INTERIOR OF THE
Y. M. C. A. NEAR
TO COMPLETIONMagnificent Swimming Pool
Striking Enough of Itself to
Make Emphatic Hit Hereabouts; Collection Campaign

Were you privileged to go through the Y. M. C. A. building today—which you are not for reasons connected with workmen up to their ears in their mire—you would get an impressive idea of the association that is soon to take its place in the life of the Luke City. The interior has reached a point of completion that enables the contractor to promise definitely to turn the structure over to the organization within something like three weeks, March 15 is the date set for the finding of the contract.

Every room and main feature of the interior has been completed and the workmen are engaged in putting the final touches to the interior. The hardwood floors of the first story were being smoothed with sand blasts today in preparation for tiling and varnishing.

When the public gets its first view of the completed interior it will see the finest Y. M. C. A. plant to be found in a city of Albuquerque's size in the whole country—a better plant than some cities of larger size can boast.

There are two main entrances at the Central Avenue front, one for seniors and one for men. The seniors and the juniors will not get in one another's way at any time. To the right of the main floor is the men's lobby and in the left is the boys' lobby. Between the two is the general office, affording a full view of both lobbies and reading rooms. There is a fireplace in each lobby. The office of General Secretary Benning and the board of directors is in the center of the first floor front, with an outlook on the street and the entrance.

There are forty-eight bedrooms upstairs. Every floor will have a telephone and there will be six exit beds in every room. A number of the rooms have already been reserved.

All the physical, cultural and social features that have come to be associated with the Y. M. C. A. ideas are to be carried out in the most modest way by the association. There is a light, perfectly ventilated gymnasium, 40 by 70 feet, and three heating alleys, both "handy" to shower baths and swimming pool.

The pool is a feature which would make the Y. M. C. A. plant a strong attraction in this part of the country. The pool itself is 29 by 60 feet, and flooded with daylight. A deep part with a patented springboard for diving is at one end and a shallow part for small boys is at the other end.

All danger will be eliminated from the pool by rigid enforcement rules.

In the first place, all those boys and men, who cannot swim will be taught now. Little boys will not be allowed in the pool at all unless an instructor is present.

The man who looks at the building and pays no or vice versa gets a large feeling of value received.

The exact status of the situation was as follows:

Many members of the house and some in the Senate, being much in the dark as to exact facts in the negotiations with Germany, fear that if we went to war with Americans are not kept off armed merchantmen and Germany should attack the American shipping.

See the Saturday and Sunday papers for the news before program.

WITNEY HARDWARE COMPANY

FAMOUS CHEF TO
GIVE LECTURES
ON KITCHEN WORKProfessor G. S. Stork to Deliver
Addresses on Cooking at
Whitney Hardware Company Daily Next Week.

We have secured the services of Prof. G. S. Stork, the Majestic Range company's celebrated French chef, for one week. Every day, beginning next Monday, at 12 p. m., this famous artist will deliver a lecture on Domestic Science at our store. This is a rare chance for the ladies of Albuquerque to get advice and recipes sent from one of the very best cooks in this country free. The professor will also give many choice recipes every day. These recipes will not be found in any American cook book.

The professor will begin his work at our store Friday morning and will welcome an opportunity to talk with the public, giving them the benefit

LOVATO'S DEATH
DUE TO BREACH
OF GRANARY WALLDoctor Rice Testifies Man
Breathed After He Was
Caught by Falling Bricks
and Mortar.

We, the undersigned, justice of the peace and jury, who sat upon the inquest held this 24th day of February, 1916, on the body of Frank Lovato, found in Precinct No. 26, of the county of Bernalillo, state of New Mexico, find that the deceased came to his death accidentally by bursting of the walls of the ware house of E. W. Fee, at 212 West Lead Avenue, on the 23d day of February, 1916.

GEORGE R. CRAIG,
Justice of the Peace.
JOSEPH VAIO,
A. H. MILLER,
A. S. MORAGA,
JAMES H. BAKER,
D. J. POLEY.

The foregoing verdict was rendered by a coroner's jury, called by Justice of the Peace Craig to inquire into the death of Frank Lovato, who was found dead in the debris following the collapse of parts of the south and east walls of the E. W. Fee feed warehouse yesterday afternoon. The jury considered the evidence and returned the verdict after being in examination only a few moments. The state was represented at the hearing by Assistant District Attorney H. B. Cornell and Attorneys W. A. Kelcher appeared to examine the witnessess on behalf of Mr. Fee.

The first witness introduced was Edward Lemble, who testified that he had examined the Fee building between 10 and 11 o'clock yesterday morning, that he had gone over the south, east and west walls thoroughly with Mr. Fee, and that from his inspection and investigation he gave it as his opinion that the walls were safe. Mr. Lemble testified that he had been engaged in brick contracting in Albuquerque for thirty years.

E. W. Fee followed Mr. Lemble and told of the inspection with Mr. Lemble and said that he had asked for expert advice, not because he believed there was anything to fear but out of abundance of caution. Mr. Fee said that on former occasions more grain had been stacked against the south and east walls than was piled up yesterday when the accident happened.

Dr. L. G. Rice testified that he did not know the cause of death, that Lovato was dead when he arrived at the scene of the accident and apparently had been dead for some time and that Lovato had evidently been buried after caught under the walls as indicated by the grain found in his mouth and throat.

T. J. Passmore, one of the first men to arrive at the place of the accident, testified that Mr. Fee had used every effort to rescue Lovato from the debris, had called for volunteers at their own wages. From the records then authorized following the accident to assist in the work of clearing away the wreckage, and had sent automobile to hardware stores for supplies of shovels.

Charles Quier testified to substantially the same things as Mr. Passmore, Mr. Quier also being one of the first to reach the place after the accident. Both Mr. Passmore and Mr. Quier said that they had been in the Fee building on many occasions recently and had not noticed any defects in the walls or any part of the foundation.

Tom Baca, who testified that he was within two feet of Lovato when the crack in the south wall started, said that he called out in Spanish "Look out" and made his escape to the door distant several feet from the main pile. Adolfo Santillanes, who was within a short distance of Baca, who also escaped, but did not know where Lovato was at the time he began to get off the pile.

Mr. Fee yesterday notified the undertaker in charge of Lovato's remains that he would stand all expenses in connection with the burial.

The Skin and Not the Blood.
Until recently it has been a generally accepted theory that eczema was a disease of the blood. Scientific investigations have taught us that eczema is positively a skin disease and curable through the skin alone. Meritol Eczema Remedy is applied directly to the diseased skin. To delay applying Meritol Eczema Remedy Prices 50c and \$1.00. Orwell Drug Co., local agency.

WILLARD LEAVES TO
COMPLETE TRAINING
FOR MORAN MEETING

By Evening Herald-Lexon Ward—
Albuquerque, Feb. 24.—Jess Willard, his manager, secretary and two trainees departed at 12:30 p. m. today for New York to begin training for his fight with Frank Moran March 25. To Chicago he left his personal word that he would return "full-chested."

Willard's appearance made it unnecessary for him to say that he had fully recovered from a recent cold.

SERVICE

is the slogan which guides
this Bank.

By SERVICE is meant not merely that customary readiness to receive your money, and keep it subject to your draft, but PERSONAL service that goes deeper and to the point of an active individual interest in and care for the welfare of our depositors, and the wise extension of every banking facility that is consistent with sound and conservative business principles, for your interests and our own.

IN ADDITION to the general banking facilities of a strong National bank, this institution is now authorized by the Federal Reserve Board, under provisions of the Federal Reserve Banking law, to act in all the more important and most useful capacities of a Trust Company—to act as trustee, to act as administrator, executor and registrar of stocks and bonds. These facilities also are at the disposal of our customers and the public.

THERE IS A CORDIAL WELCOME
FOR YOU AT THE
